1. Posted speed limits are to be observed (Bundy 30mph; Norman 25mph)
2. When coming to campus you should go up Norman Place. When leaving campus you should go down Bundy.

LONG RANGE PLANNING AT THE MOUNT:

In the spring of 1986 the college adopted a set of goals to receive focused attention between fall 1986 and spring 1991. We are now in the 1990's and it is again time to address long range planning for the years to come. We live in rapidly changing times; the world we knew last year is not the world of today nor of tomorrow. New ways and new models are needed to address the life of the 1990's especially the life of higher educational institutions. For this and other reasons, it has seemed important to put new life into our planning process. The new strategic planning process being initiated this month will give us a strategic plan which will also affect our long range planning process later this year.

A series of meetings is being scheduled between now and the middle of October to explain the new process and to distribute a form that requires a short but potentially significant response from you. It is my hope that all of you will be able to attend one of these meetings.

The schedule is listed below so that you may select and attend the meeting most appropriate and/or convenient for you.

ATHENIAN NEWS

CROSS COUNTRY

The course was fast and so were the runners. The Athenians set a new school team record on September 29, 1990, at UCSB. The team was led by Bethany Markee but other strong performances were made by Jennifer Bright, Cari Messer, Melinda Nagel and Catherine Peacock. The squad shattered the old record by 2:46. In other highlights, eight of the runners set personal bests and hit the MSMC ALL-TIME PERFORMERS LIST. The team has only been training for five weeks and even with quite a few novices, they have been competing closely with large schools.

VOLLEYBALL

In Volleyball news, the Athenians played a tough tournament at Occidental College on Saturday, September 29th. The team really came together, anticipating the other teams' actions and communicating the movement on the court. The squad didn't panic when the competition got tough and stuck in the heat of things even though they were finally defeated. Lisa Martin had five service aces, and her overall play earned her a spot on the All Tournament Team. Maria Tinoco and Jeanne Jimenez also had great play with Maria's three solo blocks, and three block assists and Jeanne with quick feet and back row hustle.

In other action the squad faced the much improved squad of Master's College on October 2nd. The team opened with little enthusiasm but then came together in the final game. The team is continuing to learn and improve. At Masters, the team decreased their serving errors and improved their passing and setting skills.

LONG RANGE PLANNING AT THE MOUNT:

In the spring of 1986 the college adopted a set of goals to receive focused attention between fall 1986 and spring 1991. We are now in the 1990's and it is again time to address long range planning for the years to come. We live in rapidly changing times; the world we knew last year is not the world of today nor of tomorrow. New ways and new models are needed to address the life of the 1990's especially the life of higher educational institutions. For this and other reasons, it has seemed important to put new life into our planning process. The new strategic planning process being initiated this month will give us a strategic plan which will also affect our long range planning process later this year.

A series of meetings is being scheduled between now and the middle of October to explain the new process and to distribute a form that requires a short but potentially significant response from you. It is my hope that all of you will be able to attend one of these meetings.

The schedule is listed below so that you may select and attend the meeting most appropriate and/or convenient for you.

<u>Date and time</u>	<u>Location</u>	<u>Group Addressed</u>
*October 16, 10 a.m.	Library Conf Rm, Chalon	SSCC and Admin. Staff
October 17, 2:30 - 3:15 p.m.	H 403, Chalon	Open meeting: entire college community

*Presentation will be at the beginning of the meeting so that others, other than the group addressed, may attend for the presentation and then leave.

A meeting for the Doheny students is still in the planning stage and is not listed above.

Drivers beware! There is a lot of wildlife roaming around our campus-especially deer. The deer that live around us are accustomed to people, automobiles and noise, hence they are bold and often run out in front of moving vehicles. There have been many near collisions on the driveways around the college buildings. Please drive with caution for your sake and the sake of the animals.

SECURITY:

The College security service requests that everyone bringing briefcases, bags or boxes to either the Chalon or Doheny campus be sure that such items have a tag or label clearly displaying the owner's name. In that way, security guards, during their regular rounds of the campus, can be better assured that bags and boxes left in classrooms, hallways, or the vicinity of buildings have not been left there for malicious purposes and/or can see that mislaid items get returned to their owners.

EXPERIENCE SIENA DAY!!!

For the past decade, the Mount has traditionally celebrated two all-college events each year. HORIZONS DAY occurs in the fall semester at Chalon, and SIENA DAY takes place during spring semester at Doheny.

Siena Day draws its name from St. Catherine of Siena. And who was this woman, whose name has become an annual trademark at the Mount?

Catherine was born in 1347, in Siena, Italy, and died on April 29, 1380. Since her canonization of sainthood by the Catholic Church, Catholics celebrate the date of her death as her feast day. During her brief thirty-three years, she lived a full life and used her God-given talents among her large family, the poor and the sick of Siena, people who came to her for advice and spiritual direction--both men and women: artists, musicians, politicians, soldiers, lawyers, Church leaders. Above all, she valued prayer and her relationship with God.

According to Sister Magdalen Coughlin, former president of Mount St. Mary's College and the initiator of Siena Day,

"Catherine of Siena lived deeply and fully in a time not unlike our own. She engaged in issues with fearlessness and candor of intelligence and deep commitment to God..."

Our "Siena Day" each spring is intended to highlight the importance of developing and using one's own time--but in a way that contributes positively to many--and to all time.

This year, to avoid the end-of-April rush of activities, Siena Day has been moved to March 20, which appropriately occurs during National Women's History Month. Our two presenters--Mimi Simson and her daughter, Shelley Simson Plotkin-- are, like Catherine, women of their time. They too, value their family, professions, people who seek their advice, and the role God has in their lives. On Siena Day, they will share their personal journeys as mother and daughter--as women. Watch for more detailed information on Siena Day posters and flyers regarding THE MOTHER-

APPLY NOW TO BE AN ORIENTATION COUNSELOR!
